

Not only studying

In the heart of the University campus there is a **Student Activity Centre** with two rehearsal halls, a big auditorium hall, and a professional recording studio. The Centre organises the biggest student events, such as: **Piastonalia**, **Winter Song Competition**, and **Kulturalia**.

Your journalistic talents can be developed in **Signals Radio** and **Seta TV**, which, once again, has been recognized as the best student TV in Poland.

If you like sports, our University offers **more than a dozen** sports sections, i.e. capoeira, volleyball, and badminton (in this discipline, our students are very successful, winning medals all over the world). In the middle of the campus there is also a sport fields complex and an open-air gym.

If you have an idea for a business, you will get help from the **Careers Service** and **Student Incubator staff**.

Our students can stay in four closely spaced, modern halls of residence. There is an observatory on the top floor of one of them.

You can be whoever you want to be!

- 8 faculties
- 10.000 students
- 57 fields of study
- 145 specialties
- 700 researchers
